

"BALI'S BEST DIVING"

TULAMBEN WRECK DIVERS
BALI, INDONESIA

**Welcome
to TULAMBEN
WRECK DIVERS
Resort and
Beach Front Villas**

Your stay

Tulamben Wreck Diver guest information

Thank you for choosing to spend time with us here at Tulamben Wreck Divers Resort, Restaurants and Beachfront Villa Suites.

We endeavour to provide our visitors with the best service possible and hope all your requirements are met.

As our guest, please enjoy the comforts we offer and the variety of dives and services available to you.

During your stay you are also invited to participate in a number of alternative activities apart from diving. All other activities are listed further on.

Thank you for honouring us with your visit and we look forward to seeing you again in the future.

Your comments in our visitors' book at the dive centre before you leave would be appreciated. (Good or bad!!)

Safe travelling, safe diving and best wishes to you all.

Tony & Dot Medcraft, Wayan Ambek, dive guides, instructors, hotel and Villa staff.

Tulamben Wreck Divers

Accommodation

Accommodation choice consists of three locations; Tulamben Wreck Divers resort within the dive shop premises, Beachfront Villa Suites on the waterfront, and Superior Rooms located at the Tulamben Wreck Divers Restaurant premises, approximately 30 metres walking distance from the dive shop.

All locations have their own unique style and provide a relaxing atmosphere and pool area.

Room service

Rooms are cleaned every day by our resort staff.

Linen is replaced every three days and clean towels are given every day.

Extra towels are available on request.

Refrigerators are stocked with a selection of cold drinks and replaced daily with the costs put on your room bill. Extra drinks can be obtained at the dive shop up until 9pm.

Bottles of wine and a selection of spirits can be purchased in the 'Toko' (supermarket) across the road from the dive shop.

Tea and coffee is complimentary in rooms and if more sachets are wanted, just ask any of the staff.

Entertainment

All rooms are equipped with TV sets and DVD players. The latest movies are available for purchase at the dive shop for a minimal cost.

Hotel & Villa security

The Villas have a security man, Mr Kalar, at all times.

The hotel has two security men attending every night.

Tulamben has an excellent reputation as a very safe area, however we do expect that you take all necessary precautions with your valuables and personal items.

All care and no responsibility is taken by management.

Please use your room safe to protect your valuables if you are concerned.

Checking out

Rooms are normally vacated by 11am however if your dive schedule extends past this time, a late checkout is no problem on the proviso that new incoming guests are not waiting to occupy the room.

Should this be the case your luggage will be safely looked after inside the dive shop by the staff until you leave.

Anything else you may like to know?

Please feel free to ask any of our staff. They are there for everybody and are only too willing to be of assistance.

A few (little) rules

Please do not hang towels, clothes or dive gear over the balconies.

Smoking is permissible in the rooms if you wish... with caution and with open windows please.

Sanitary items must be put in bins provided under the hand basin in the bathroom ...

(Not down the toilet please).

Enjoy the swimming pools at any time, keeping noise to a minimum and respecting other guests' privacy.

Young children should be supervised at all times and be alerted to the fact that all the ceramic tiles are very slippery when wet.

Please notify any of the staff of any faults or damage in your room so they can be remedied as soon as possible.

Drink prices from the mini bar

See separate price list.

Tipping the dive guides or hotel staff

Tipping is not the 'Australian or Balinese way' therefore we do not encourage this.

Some of our guests like to offer a reward to their dive guides for doing a great job for them. This is purely a personal decision by the guest and is always appreciated if the service warrants it.

Meals

Breakfast

A tasty hot cooked breakfast is prepared for you every morning in the restaurants at the Villas or hotel overlooking the swimming pools. Breakfast time is between 7.30am and 10.30am.

Note: If checking out earlier than this, a continental breakfast basket can be made the night before and kept in your refrigerator overnight. Please inform the staff the day before should you require this.

Restaurants

As well as our two restaurants, there are numerous local eateries around Tulamben that adequately cater for lunches and dinners.

We all provide a very good choice of local and Western dishes. Our staff can guide you to their localities.

Diving

Diving and snorkelling

We offer diving from our first class PADI scuba facility; we only use the best equipment, along with trained dive guides who are more than capable of escorting you to our many dive sites and know just what creatures to show you.

Particularly famous is our U.S.A.T. Liberty ship wreck dive, located only a short distance from the dive centre and a few metres from shore.

The Liberty is an awesome hulk; home to an abundance of marine life and wonderful coral formations. It is always a treat to see the large herd of bumphead parrot fish grazing around the wreck very early in the mornings before they head up to the Drop Off for the day.

All dive courses from PADI Open Water to Dive Master are available with our qualified instructors.

For those who have wanted to try diving, why not do a 'Resort Dive'. A one-off dive opportunity in an ideal location, and very safe.

For the less adventurous, snorkelling is a wonderful option, with both the Wreck and Coral Gardens being clearly visible from the surface. We have snorkelling gear at the dive centre for hire any time.

Kubu wreck

The drop off

Coral gardens

Mystery rocks

Mystery rocks

Suggested dive sites to consider (all dives can be suited to your own schedule)

Liberty ship	from 10 to 30 metres, teeming with marine life.
The drop off	from 10 to 40 metres, fantastic wall dive, beautiful corals.
Coral gardens	from 5 to 15 metres, amazing variety of creatures and coral.
Batu Kalibit	from 10 to 25 metres, very comfortable and surprising drift dive. Excellent nudibranchs here.
Kubu reef	from 10 to 30 metres, prolific life and different corals and new wreck.
Malasti	from 5 to 24 metres, wonderful macro life.
Mystery rocks	from 10 to 40 metres, our newest site with wonderful terrace formations, fresh water cave and a different array of marine life on each level.
Seraya	from 10 to 25 metres, ideal for the macro buffs here with fantastic photo opportunities. Many unusual critters to be seen.

Further afield, diving can be arranged for Amed, Tepang, Tepakong, Nusa Penida. From mid July to mid October full day 'Mola Mola' Sunfish and Manta Ray tours can be organised for those who want a dive of a lifetime. (**Experienced divers only**).

Squat lobster

Triplefin goby on seapen

Liberty wreck site

The USAT Liberty

Built: 10th June 1918

Tonnage: 13,130

Speed: 11knots/20 km/h

Armament: 1 x 6inch turret
1 x 3inch turret

The wreck is directly situated near the beach on Bali's northeast coast – literally a short walk from the front door of Tulamben Wreck Divers.

The 120m long wreck of what used to be an American supply ship rests on a 90 degree angle with the deck facing the open sea.

Anchored off the coast of Lombok, the ship was hit by a Japanese torpedo during World War II. Miraculously nobody was hurt, but the damage turned the ship into a non-functioning and useless hull.

The American Navy's plan to tow the ship to Singaraja harbour (north Bali) failed as the harbour was completely occupied, so the ship was intentionally stranded on the rocky beach of Tulamben, where it was unloaded.

In 1963 Mount Agung (the volcano which towers over Tulamben) erupted and the magma flow pressed the ship back into the sea where it presently rests at a depth of 3 to 30 metres.

Since then coral has coated the wreckage turning it into a new home for an extraordinary number of fish, coral and invertebrates. Bumphead Parrotfish, Napoleon Wrasse and Barracuda are regularly spotted around the wreck.

The wreck is easily accessible from the beach and is also an excellent snorkel site.

The wreck is an absolute underwater wonderland of marine life – schools of Trevally, Bream, Fusilier and Anthias mill all over and around the wreck – often following you during the dive. Batfish, large Sweetlips, Angelfish, Butterfly fish and Anemone fish (with resident anemones of course) hover under edges and in crevices. Lionfish, Scorpionfish, Hawkfish, Pufferfish and Coral Trout are everywhere – as are the Gobies, Blennies, Shrimps and Dottyback out on the sand flats.

The wreck is simply alive with life; Corals, Sponges and Gorgonian fans are breathtaking along with the thousands of invertebrate life within them.

Liberty wreck site

Dive courses

An Introductory Dive

An Introductory Dive is a safe experience with an instructor and includes a bit of theory, a pool training session and a final practice in the ocean. A guided tour of the Liberty wreck site with its outstanding corals and fish life is included.

Open water dive course

It only takes four days and this dive course includes all theory, PADI student pack, all SCUBA equipment, pool sessions, PADI certification to 18 metres and four ocean dives on the famous Liberty Wreck.

Refresher course

Refresher courses include a practice session in the pool with an instructor to ensure you are confident with the SCUBA equipment and skills, then one dive on the Liberty Wreck.

Advanced Open Water Course

A perfect way to gain confidence and extra skills after your open water course. This course shows you five different types of diving like night, deep or wreck diving. It teaches you better use of a compass, underwater navigation and how to safely dive at night or perfect your buoyancy skills.

The Advanced diver certificate also allows you to dive deeper than 18 metres and is often a requirement for dive charter boats and interesting dive sites beyond the Open Water category.

The Advanced Course consists of 5 dives with 2 core dives: navigation and deep dives and 3 extra dives including night, wreck and drift dives.

The Advanced course takes 2 to 3 days and price includes all theory, manual, SCUBA gear, air fills and PADI certification.

Tony and Dot Medcraft are joint owners of Tulamben Wreck Divers with Wayan Ambek. Tony and Dot bring a wealth of experience, having spent over 11 years in Exmouth, Western Australia running their own dive stores (Exmouth Dive Centre and Ningaloo Reef Dive) and creating the Whale Shark Tours on Ningaloo.

Tulamben Wreck Divers Resort is run to International Standards of service and safety, at the same time offering a fun environment if you are thinking of completing any kind of SCUBA training.

Tulamben Wreck Divers are happy to provide the following courses:

PADI - Dive Specialty Courses

Dive Specialty courses are an excellent way to build skills and gain experience in particular types of diving. Some dives, like night or deep, require special skills and equipment knowledge to carry them out safely and enjoy the adventure without stress.

All our specialty courses are individually designed around you and your schedule which is why we can only give a price on application. If you wish to complete a specialty which is not on our list – please contact us and we will try and arrange it for you.

PADI Rescue Diver

The rescue diver course provides you with excellent skills to rescue not only yourself but also another diver. At the end of this course, you will be able to competently rescue a drowning or unconscious diver, administer CPR, understand accident prevention, manage an accident site and rescue, administer basic first aid and know more than you ever thought possible about diving and rescue equipment!

It is also one of the most enjoyable courses with divers working as a team covering a variety of scenarios. It is amazing how much information you absorb whilst laughing!

After completing the rescue course, divers say they feel more confident about their ability to rescue themselves and other divers in trouble.

Rescue Courses take 4 nights / 5 days and include all equipment, manuals and PADI certification.

PADI - Enriched Air Nitrox

SCUBA Diving with Enriched Air Nitrox.

The PADI Enriched Air Diver course is PADI's most popular specialty SCUBA diving course, and it's easy to see why. SCUBA diving with enriched air nitrox gives you more no decompression dive time. This means more time underwater, especially on repetitive SCUBA dives.

The Fun Part: Divers breathing underwater with Nitrox you can typically stay down longer and get back in the water sooner.

No wonder many divers choose this as their very first specialty. Enriched air can also improve safety and keep fatigue at bay when diving multiple dives per day.

Course includes manuals, gas, 1 dive and PADI certification.

Personal laundry service

A washing service is available (allow one day) the cost is very little. Please arrange with the staff before 10am.

Child minding

Babysitters can be organised for parents wishing to dive or snorkel together. A nominal payment is expected. The Balinese adore children and your child's safety will be in good hands.

Massage

Should any of our guests like a massage on any day, Massage ladies come every afternoon from 3pm onwards.

The cost of your massage is to be negotiated directly with the lady at the time she attends to you.

Please refrain from lying on your bed until you have showered and removed the oil as it is extremely difficult to remove the stains at laundry time.

Daily needs

The supermarket opposite the dive centre sells a variety of goods.

Generally these include confectionary, nibbles, biscuits, minor medicines, batteries and a small selection of wines and spirits and most necessities.

They also sell an excellent range of souvenirs such as wood carvings, sarongs, clothes and shoes.

Communications

Communications are very good, but can be a little erratic occasionally due to the remoteness of our area.

All of our rooms have free WiFi

A post office and photocopying service is situated in Kubu which is two villages north, and approximately three kilometres away. Transport can be organised if needed.

Transport

Hire of a motorbike can be organised for a do-it-yourself look around. Ask at the dive shop.

Transfers to and from Kuta/ Airport can be arranged and take approximately three hours.

Money

Tulamben Wreck Divers accepts payment by Visa or Mastercard (with a surcharge to cover costs).

There is one ATM in Tulamben. Most businesses accept payment in cash (Rupiah).

It is advisable to change your money before coming to Tulamben. Drivers can stop for this, just ask them before or after pickup.

Medical information

There are no Medical services in Tulamben with the exception of a small clinic situated in Kubu about 10 minutes away – this usually only caters for local people with mild problems.

The nearest hospital is down at Amlapura (45 minutes away). Should a major problem arise one should head straight down to Kuta and be attended to by the B.I.M.C. (Bali International Medical Centre) which has excellent Western facilities.

Staff can handle all requirements.

Stomach upsets, usually thought of as ‘Bali Belly’, are more often than not a case of ‘spice is nice’. Our bodies are not accustomed to a complete diet change which is more likely the cause.

Fresh food is purchased at the local market on a daily basis and is up to standard as a rule.

NORIT is recommended if required.

A purely natural charcoal product, Norit should be taken strictly as directed by the English

instructions inside the box, for at least three days and drunk with plenty of water to wash them all down. The problem should pass.

(Do not be alarmed when you use your bowels as the colour will be very black). The action of the charcoal acts as a filter and is designed to filter out any bug you may have.

The welfare of our guests is of prime importance to us, so if you do begin to feel any stomach discomfort, ask the dive shop staff for some ‘Norit’ charcoal tablets.

Perhaps a few Balinese words to help along the way?

Terimah kasih – Thank you

An easy way to remember this one is to say what I said on my first trip to Bali about 24 years ago. “Tear up my car seat” saying it really quick. The Balinese not only accepted this version but got quite a chuckle out of my attempt.

ya	yes
apa kabar	how are you?
tidak	no
baik baik	good thankyou
tidak terimah kasih	no thankyou
kamar mandi	bathroom
tidak bagus	no good
kakus	toilet
salamat pagi	good morning
mandi	shower or wash
salamat siang	good afternoon
handuk	towel
salamat soree	good evening
cucian	laundry
salamat malam	good night
toko	shop
salamat tinggal	goodbye
warung	restaurant
mau kemana	where are you going
buka	open
jalan jalan	i am going walking
tutup	closed
sampai jumpa nanti	see you later
hari ini	today
kolam	swimming pool
besok	tomorrow
renang	swimming
samapai jumpa besok	see you tomorrow
sepedamotor	motor bike

kemarin	yesterday
mobil	car
makan	food
ketchup	sauce
ikan	fish
ketchup manis	sweet soya sauce
ayam	chicken
ketchup sambal	chilli sauce
sapi	beef
kopi	coffee
babi	pork
teh	tea
bebek	duck
susu	milk
nasi	rice
pantai	beach
air	water
mei	noodles
air panas	hot water
roti	bread
air dingin	cold water
mentega	butter
air es	ice water
money	rupiah
satu	one
dua	two
tiga	three
empat	four
lima	five
enam	six
tujuh	seven
delapan	eight
sembilan	nine
sepuluh	ten

for double these amounts each number is added the word “puluh” for example satu puluh, dua puluh, tiga puluh etc.
